### **Top tips for talking**

**How you can help.....**

Helping your child to develop good listening skills is just as important as talking.

**Why?...**

Being able to listen to one sound or voice among other background noises is a skill children have to learn.

**So try to...**

Stop and listen when you are out and about as this will help your child to develop good listening skills.

"Oh! Aeroplane. Can you hear it? Look..., up in the sky... aeroplane."

Ask what they can hear and mimic the sound of the plane.
